

# The Dream's Not Dead

## Candy Hearts

It's getting to that time of night  
where we brace ourselves for the sun to rise  
It's 3am and all of our friends fell  
asleep sitting up in the backseatWe play the radio, the radio soft  
We sing as loud, as loud as we want  
I feel it in my bones, I feel it in my lungs  
that maybe just this onceOh Oh Oh Oh The dream's not dead  
Oh Oh Oh Oh It was just sleeping  
Oh Oh Oh Oh The dream's not dead  
but I have been up all night  
What we have might not be nice  
we've got a car that starts most of the time  
a full tank of gas, some failures on our backs  
but that's enough to drivesometimes we make everything worse  
sometimes we sleep until it hurts  
I've been in bed too long, I forgot what I want  
but now it's time to get up.Oh Oh Oh Oh The dream's not dead  
Oh Oh Oh Oh It was just sleeping  
Oh Oh Oh Oh The dream's not dead  
but I have been up all night  
The dream's not dead it was only sleeping  
when I close my eyes I can see it  
the dream's not dead it was only sleeping  
while I have been up all night
