BPM

Trick

Please excuse my move
If I could get a minute or two with you
And you's a perfect 10 for me
What I need to do for you to come attend to me
Shawty shining like a sunlight
And she flyer than the birds in the blue sky
Not duplicated, she underrated
Got the digits to my cell go ahead invade itThis girl is just the right tempo
Not too fast and not too slow
You're all I need baby can't you see
We're rocking to the same heartbeat (It goes like this now)
This song is just the right tempo
Not too fast and not too slow
You're all I need baby can't you see
We're rocking to the same heartbeatQuit messing with my B, my B, my BPM
With my B, my B, my BPM
With my, with my, with my BPM
With my, my BPMShe got the tempo, tempo
How she moves it fast then she slows it down
Echo in my heartbeat, she never off beat
She keep my pusle rate running like an athlete
And shawty I appreciate it
And you thinkin bout me and all I do is the same thing too
Me plus you and that's dos two
Can't nobody do you like I do, keep workin it
