Trouble

jack barnes

Got a brand new hat and some brand new shoes
Got a shiny new haircut and a new attitude
Got a pocketful of paybacks you know I cant lose
but best of all baby I've got you

I've been all around the world been to heaven and hell
I've been to venus I've been to mars and the moon as well
I've had hard times and good times and some bad times too
but thats alright mamma 'cause I've got you

There is no love like the love that i feel for you
When I'm looking for trouble I've got you

When I need a little sympathy and I'm all alone
When I need someone to comfort me I just pick up the phone
You better believe it 'cause you know that its true
When I'm looking for trouble I've got you
