Vinyl

William Michael Morgan

If our love was a song girl
I'd play it all night long girl
I tell you what I'd put it on girl
I'd put it on vinyl
A little rock, a little Motown
You got that baby pull me close sound
You make the whole room go round and round like vinylWhat we got is a little old fashioned
Baby you're an instant classic
They don't make 'em no more like you
So let the needle drop and play it all night
Might have a little static but it's all right
Ain't nothin gonna stop this grooveYou know you got the real thing
The whole world outta know your name
Like a band in the hall of fame
On vinyl
I wanna let your hair fall girl
Oh you're beautiful you got it all girl
I'd hang the cover on the wall girl
Just like vinylWhat we got is a little old fashioned
Baby you're an instant classic
They don't make 'em no more like you
So let the needle drop and play it all night
Might have a little static but it's all right
Ain't nothin gonna stop this groove noLet the needle drop and play it all night
Might have a little static but it's all right
Ain't nothin gonna stop our groove noIf our love was a song girl
I'd play it all night long girl
I tell you what I'd put it on girl
I'd put it on vinylWhen you say my name it's the sweetest sound
Aw girl you got me spinnin round and round like vinyl
Like vinyl
Ain't nothin gonna stop this groove
No they don't make 'em no more like you
Like vinyl
