

Obscure

DIR EN GREY

How many hangings under the red moon "..."

How deep will it sink inside eating skin that doesn't match?
The snake makes way through the sheets and goes inside the uterus.

It can seem like a someiyoshino; a cherry blossom petal, that dances sadly.
The stain is the moon that's fulfilled, and the vomiting at night begins.

Don't you remember?

Color of faint... the night begins and people start to awe.
Color of pomegranate... sting with the prick and disappear far away.

How many secret hangings of the premature baby tonight under the red moon "..."

Bloody Baby & Sacrifice

Don't you remember?

Color of Golden yellow... want to be the spider that stings.
Color of tears... remembering the memories.
Color of faint... the night begins and people start to awe.
Color of pomegranate... sting with the prick and disappear far away.
