

# Five Senses

Sam Moran

With my eyes I can see the sky  
With my nose I can smell the flowers nearby  
With my hand, I can touch a tree  
With my ears I can hear the birds sing, melodies  
With my mouth I can taste the bite of anything I like

And with these senses I can see  
The big wide world surrounding me  
With these five senses  
Right here by my side  
And with these senses everyday  
I feel the world a different way  
With these five senses  
Right here by my side  
Everythingâ€™s alright

With my eyes I see your smile  
With my nose I can smell some sweet food for a while  
With my hands I can hold a Baby  
With my ears I can hear him laughing all day  
With my mouth I can taste the bite of anything I like

And with these senses I can see  
The big wide world surrounding me  
With these five senses  
Right here by my side  
And with these senses everyday  
I feel the world a different way  
With these five senses  
Right here by my side  
Everythingâ€™s alright

Five senses

These are my five senses

Everythingâ€™s alright
