

# Morrigan

[SuidAkrA](#)

[Music & Lyrics by Suidakra]Once, on another weary day of mine  
Just when the sun began to fondle mother earth  
On a hill I stood to behold this crimson embrace  
A stricken field to my feet (under bloody mist)  
Myriad hollow staring eyes  
The corvine goddess appeared  
Emptiness filled my mind  
Fervid thoughts crawled suddenly into me...Morrigan - three faced goddess dark and wild  
For thee I'll raise my sword and shield  
Morrigan - grimest crow beneath the sky  
May the eyes of thousands please thy raging greed  
Come forth now grimest crow  
Thou cry shall shatter earth and sky  
...Like a shrieking carnyce...In thy shadow I shall stand forevermore  
I send thee hail and eternal troth...  
Night descended and the stars within my eyes  
Cleared my mind and aflamed my heart  
I flee thy corvine ire  
Morrigan - three faced goddess dark and wild  
For thee they rose their swords and shields  
Morrigan - grimest crow beneath the sky  
May the eyes of thousands please thy raging greed - but not mine...
