

Southern Butterfly

Marianne Faithfull

Where I walk and life is warm
Sun and breath hopefully here
All our hearts are blessed Texas real
A woman sworn to man
Here I tried, here I tried
To be the best So hot it's white and real to me
I'd stay awake all night
Asking your silent sympathy I know something new
Southern butterfly and you
I know something new
Southern butterfly with you Texas real
A woman sworn to man
Here I tried, here I tried
To be the best So hot it's fine and real, real me
I'd stay awake all night
Asking your silent sympathy I know something new
Southern butterfly with you
I know something new
Southern butterfly and you I know something new
Southern butterfly and you
I know something new
Southern butterfly with you
