

# I Want You Back

Colin Hay

I'd be glad to give back  
All I have ever owned  
If I could have seen into the future  
If only I had known  
Behind these walls of separation  
I have learned to live alone  
But I want you, I want you back I could clearly see the letters  
But not the writing on the wall  
About what had come between us  
How the mighty fall  
And one thing keeps repeating  
Is the only thing I know?  
That I want you, I want you back  
Yeah I want you, I want you back Well I have taken that number  
How can I have been so blind  
Now I am coming up from under  
It's you I have to find  
My back is all up against the ropes  
Only one way I can go  
And I want you.  
How far is the distance  
Have you gone beyond the sign  
Have you passed the point of no return  
Have you crossed that line  
And if it burns me like a fever  
I've got to tell you one last time  
That I want you, I want you back  
Yeah I want you, I want you back(3)
