Spark Gap

Spark Gap
MÃœNCHAUSEN BY PROXY

Can't explain why do I need your disease,
But I want it, I want it.
I want the same bad trouble,
Loving means to me falling sick.

Oh, I need, I need 'em all
I wanna be sick like an animal

My baby with the hospital,
I keep control on you.
My baby with the hospital,
I keep control on you.
No one knows, no one even you because,
My baby with the hospital,
I keep control on you.

Come close good old times,
Rollin like a rope and stool.
Baby, baby you are mine,
How dare you call me a fool.
Poisoning down his throat,
With meds youâ€™ll be killing tonight.
Again and all the time, I never wanna let you go

Oh, I need, I need 'em all
I wanna be sick like an animal

Chorus
