Change

Glasvegas

Mama, I feel so scared
For three years
Liberty and walking free
Was every night my fantasies
And Mama, I feel so afraid
So swallow me up the open gates
The unknown awaits
'Cause I don't think I could ever ever change
I would change if I could
I'd change
I would change for you
Listen son, don't be scared
Please don't be afraid
The monsters, they're gone
They're well on the run
And your mother's here
So let's earn each others love
And never until it's something unconditional
So come on, son
Bring back that smile again,
And be led not into temptation
And dare to resist re-offending again
'Cause son, truly
It's never too late to change
A change is sometimes good
But before you change for me
Change for you
