

Alone with Me

Cher Lloyd

We can be the Bonnie and a Clyde of a new day
We can be a Johnny and a June if you want me boy
I'm over here in the corner, boy
Dreaming about us together
If you wanna go the heaven I will take ya
If you wanna get a little hot, I'm on fire boy
I'm over here in the corner, boy
Dreaming about us together
Why you
You dance with everyone but
You don't even know
It's me that you should hold
Yeah you
You dance with everyone but
They can't over hold
'Cause I want you alone with me
Me, with me,
I want you alone with me
Me, with me,
I want you alone with
We can be a diamond and rust, come and find it
You could be a Jekyll or a Hyde I can take you boy
I'm over here in the corner, boy
Feels like I've waited forever
If you ever want someone to know ya
I can be the only one who knows how to get ya
Boy I'm over here in the corner, boy
Feels like I've waited forever
Why you
You dance with everyone but
You don't even know
It's me that you should hold
Yeah you
You dance with everyone but
They can't overhold
'Cause I want you alone with me
Me, with me,
I want you alone with me
Me, with me,
I want you alone with
Yeah we can be living lone
I take you up to the stars
Don't want, are we still apart?

(Yeah, yeah) yeah we can be living lone
I take you up to the stars
Don't want, are we still apart? If you ever want someone to know ya
I can be the only one who knows how to get ya boy
Yeah I want you alone, yeah I want you alone with me
Me, with me,
I want you alone with me
Me, with me,
I want you alone with me Yeah we can be living lone
I take you up to the stars
Don't want, are we still apart?
I want you alone with me
Yeah we can be living lone
I take you up to the stars
Don't want, are we still apart?
I want you alone with me
