

You Are Royalty to Me

Ellis

You are Royalty To Me
(For Granny)

How do you write a song for a queen?
How do you find the words or the melody?
Imagine a honky tonk humming a symphony
Or a pedal steel playing a Beethoven suite
How do you write a song for a queen?
When I was a kid, youâ€™d sit on your throne
Weâ€™d fly down the highway
In your Lincoln Continental
You saw the good in me, you said I was bright
I felt like the sun seeing myself in your eyes
Youâ€™ll never know just what your love means
Did you know youâ€™re royalty to me?
Growing up in Texas in that small town
No, I didnâ€™t fit in so I kept my head down
I would run home from school
To play cards with you again
We would laugh and cry while talking
Youâ€™ll never know just what your love means
You are royalty to me
Now you wear a crown of silver
In place of your gold
And time has taken almost everyone you know
If you ever doubt you made a difference for me
I am who I am because I was loved by a queen
You will always be royalty to me
