

# You Are Royalty to Me

Ellis

You are Royalty To Me

(For Granny)

How do you write a song for a queen?  
How do you find the words or the melody?  
Imagine a honky tonk humming a symphony  
Or a pedal steel playing a Beethoven suite  
How do you write a song for a queen?  
When I was a kid, you'd sit on your throne  
We'd fly down the highway  
In your Lincoln Continental  
You saw the good in me, you said I was bright  
I felt like the sun seeing myself in your eyes  
You'll never know just what your love means  
Did you know you're royalty to me?  
Growing up in Texas in that small town  
No, I didn't fit in so I kept my head down  
I would run home from school  
To play cards with you again  
We would laugh and cry while talking  
You'll never know just what your love means  
You are royalty to me  
Now you wear a crown of silver  
In place of your gold  
And time has taken almost everyone you know  
If you ever doubt you made a difference for me  
I am who I am because I was loved by a queen  
You will always be royalty to me
