

# We Fall out of Touch

**Patrick Park**

Here I am  
Head on my sleeve and heart in the sand  
Just wait for the well to fill  
Before it all turns bitter like a poison pill Ah my love  
There's no end to all the ways we've fucked this up  
Until it all gets so crazy that you couldn't make it up  
I never want to get so far that we fall out of touch  
We fall out of touch So here I stand  
Blood of the wolf and heart of the lamb  
And wait until it all turns real  
The way we shiver and sway the first time we feel Have we given up?  
There's no end to all the ways we've fucked this up  
Until it all gets so crazy that you couldn't make it up  
I never want to get so far that we fall out of touch  
We fall out of touch  
We fall out of touch  
We fall out of touch  
We fall out of touch Oh have we given up  
There's no end to all the ways we've fucked this up  
Until it all gets so crazy that you couldn't make it up  
I never want to get so far that we fall out of touch  
We fall out of touch
