

Bringing Back the Balls To Rock

Lordi

Attention class, here we come
We kick your ass, that's lesson one
I know you've been living in heresy
Correction's what you need Less isn't more
Less is less
The more, the better
The most, the best You gotta turn up the amps past overload
Eardrums will explode
We are what we want to be
Monsters of rock, we are for real
Stand up for what you believe
And shout Hail in the name of rock and roll
Hail in the name of rock and roll
Hail in the name of rock and roll
Bringing back the balls
Bringing back the balls to rock Breathing fire, spitting blood
Biting off the heads of bats and doves
Dragon boots and guillotines
That's what I want to see We're the SMF, with metal hearts
Got love machines, we're breaking the law
We've got the looks that kill
We're the youth gone wild
We're the creatures of the night We are what we want to be
Monsters of rock, we are for real
Stand up for what you believe
And shout Hail in the name of rock and roll!
Hail in the name of rock and roll!
Hail in the name of rock and roll!
Bringing back the balls
Bringing back the balls to rock Big drums, leather and chains
Loud guitars, grimace and flames
The two-finger signs, raised fists up high Hail in the name of rock and roll
Hail in the name of rock and roll
Hail in the name of rock and roll
Bringing back the balls
Bringing back the balls Hail in the name of rock and roll
Hail in the name of rock and roll
Hail in the name of rock and roll
Bringing back the balls

Bringing back the balls to rock
