

Meet Me in the City

Junior Kimbrough

Meet me over in the city
And I see everything is so fine

We'll get together now, Darling
Oh yeah, we will
We'll make everything all right

Oh Honey, don't
Please, please don't leave me right now
Right now

You got me, Baby
You got me, Girl
You got me where you want me, Baby
Now Girl, I know you are
Satisfied

You got me, Baby
You got me, Girl
You got me where you want me, Baby
Now Girl, I know you are
Satisfied

Yeah but there's one more thing I wanna tell you right now, Baby
Don't leave me, Girl
Please, please don't leave me right now
Right now

Sometimes I think I will, Baby
And then again my my my my my mind'll change

Yeah, sometimes I think I will, Baby
And then again my my my my my mind'll change

Ah tell me don't do it right now
Please, please don't leave me right now, right now

Ah ha, I love you, Girl
Yeah a yeah yeah yeah yeah
I love you, Babe

Please, please don't leave me right
Right now
