

Lawns of Dawns

[Nico](#)

Can you follow me
Can you follow my distresses, my caresses
Fiery guessesSwim and sink into
Early morning merciesHe blesses you
He blesses me
The day the night caressesCaresses you, caresses me
Can you follow meDawn your guise has filled my nights with fear
At each closing of my eyes
You never see these pictures in my mind
Can you follow meAside from leaving overdrawn caresses
Aside from having thrown a joke on you and me
Can you follow me
I cannot understand the way I feel
Until I rest on lawns of dawns
Can you follow me
