far beyond

Israel Vibration

Black clouds over me, I'm paranoid
I can't shake the ground beneath my feet
Stuck in between, the right and wrong
Way of admitting my defeat
So much confusion
Disillusion of what we're supposed to be
There's no solution
It's the point of view we're all too blind to see

All by myself, I'm on my way
I'll never surrender
Far beyond where all ambition's locked away

Corruption in the streets, I'm terrified
The cracks in the windows are losing head
So much I've seen, the more I try
It keeps getting harder to believe
So much confusion
Disillusion of what we're supposed to be
We can't stop the motion
With this notion we're so used to living with

All by myself, I'm on my way
I'll never surrender
Far beyond where all ambition's locked away
All by myself I'm on my way
I'll never surrender
Far beyond is where my passion hides away

When did we become
Ashamed of what we've done
Just like a loaded gun
We've got the power
We'll fight back in anger
We're falling in deeper
Deeper and deeper
We'll fight back in anger

All by myself, I'm on my way
I'll never surrender

Far beyond where all ambition's locked away
All by myself I'm on my way
I'll never surrender
Far beyond is where my passion hides away
