Wasted Thunder

Hotel Apache

I just wasted thunder
The electricity is going out of sight
Iâ€™ve been stretching hope for too long
In the mornin then youâ€™ll be gone
Baby it was just a dream
Iâ€™m the only one you make feel it to the limit
Youâ€™ve been out the way itâ€™s only bad been a minute
Someone broke the, broke the heart youâ€™ve been given for free
And Iâ€™m here when you need
Oh
Ive been lying in my bed thinkin about ya
And I hear it on the radio
And I can feel my heart itâ€™s beating slowly
But I need ya so

But if you tell me that you never fully found somebody
I get it
But I can love you every single moment
And I will I will
Oh
Cause Ive been lying in my bed thinkin about ya
And I hear it on the radio
And I can feel my heart itâ€™s beating slowly
But I need ya
so yeah

I can feel
I can feel
I can feel when you play when you play on my heart string
I can feel when you lay when you lay on my heart beat
I can feel when you play when you play on my heart string
I can feel when you lay

Ive been lying in my bed thinkin about ya
And I hear it on the radio
And I can feel my heart itâ€™s beating slowly
But I need ya
so
Ive been lying in my bed thinkin about ya (when you play on my heart string)

And I hear it on the radio
And I can feel my heart itâ€™s beating slowly (when you lay when you lay on my heart beat)
But I need ya
so yeah
