Look What I Found

Big Wreck

It's fully operational
We don't even have to sell
I rooked it but what the hell
It's someone else's soul, oh well
(It's) stolen, but it's OK
If integrity says no way
Well, now it's here to stay
So let's go outside and play
Well, I suppose so
Well, I never did really wanta know
How can you walk around
With your feet up off the ground
How can you steal their sound
Keep your ears below the ground
Take a look around
Look what I've found
No one will ever notice
That all your shit is bogus
An' never go for the fear
That someone like me might hear

This schtick is gettin' thinner
But you'll come out a winner
Check's already in the bank
You've forgotten who to thank
And weak is what you bring
And what I need is the real thing
How can you walk around
With your feet up off the ground
How can you steal their sound
Keep your ears below the ground
Take a look around
Look what I've found
Well, I suppose so
Wonder will we ever know
How can you walk around
With your feet up off the ground
How can you steal their sound
Keep your ears below the ground

Take a look around
Look what I've found
