Skin

Jebediah

And the day that we left
What was I sposed to do, I should swallow my pride
I found a whole in my chest
(Chorus:)
When you said we were only friends, hanging out
and say it's cool, but I'm a fool, I want you....
I guess I always knew I wouldLike you too much for my good
It's so true x3
It gets me when I tell you this but it's true
And the night that we kissedBut I still knew how good it felt, but did you?
We were both pretty pissed
Now I'd do anything, to get you out from underneath my skinWishfull thinking, don't want toChorusChorus
You.....It's so true x2
