

Weight of the World

Black Rebel Motorcycle Club

This is more than I wanted
Take me out of the dark, I roam there
Cold and black, you're out of touch, yeah
Lightly falling in a whisper, you're scared It's the weight of the world, I know
As I struggle to be whole
It's the weight of the world, I know
As you were mine and we will find This is stranger than love or loss
Turning backwards you face the dawning
No excuse for a wasted life
Lightly falling through a whisper of sky It's the weight of the world, I know
As I struggle to be whole
It's the weight of the world, I know
As you were mine and we will find Time will change, still the world remains the same
Time will change, still the world remains the same It's the weight of the world, I know
As I struggle to be whole
It's the weight of the world, I know
As you were mine and we will find
