

Bunker Buster

Viet Cong

Nowhere nowhere florescent violet steam
And walk through the knee on season
Stand over me then lift on dump all these kids Slowly screaming, it's a deranged enhancement
Keep playing acme fires, it's over, the foulups and problems
Wave from Slowly slowly fall through the snow so softly
Can't get anywhere with dough, where outraging all that go with
Nowhere to go Nowhere nowhere florescent violet steam
And walk through the knee on season
Stand over me then lift on dump all these kids Slowly screaming, it's a deranged enhancement
Keep playing acme fires, it's over, the foulups and problems
Wave from
Well, tell me, are you mule or man, if you live the same
I'll know eventually, just tell me where you came from
You tell me where you came from
You tell me where you came from
You tell me where you came from
