Grendel, Snowman

Fu Manchu

Casts his shadow miles across the sun
Keepin' them in sight when they run
All of a sudden we hear the fore send
Trackin' 50 feet above my headLike we seen it so there it goes
Like we seen it so there it goesBeam in grip for years
Never found, we here
Taking giant strides upright
No remains, they dieLike we seen it so there it goes
Like we seen it so there it goesUnidentified, unidentified
Unidentified, unidentified
Unidentified, unidentified
Unidentified, unidentified
