

Where's the Love (feat. Kijana)

Dole & Kom

Where is the love ?
Bring me down. Bring me down.
Where is the love ?

Bring down. Bring me down.
Where is the love ?
Bring me down
Bring me down.

Where is the love?

Bring me down. Bring me do down.

You talk about wanting your freedom but your putting your mental person with your quiver.

You talk about wanting your freedom but your putting mental person with your quiver.

you told me the wait seven days, nog eleven times, where the 27th babe.

What happened baby?
you still wonder where heaven might be.

you told me the wait seven days, nog eleven times, where the 27th babe.
I'm still waiting for you to happen baby.
You told me the wait seven days, now eleven times, where the 27th, babe.

Where is the love?
Bring me down. Bring me down.
