# Astro Zombies

## The Dangerfields

Oh, all I want to know
All I want
With just a touch of my burning hand
I send my Astro Zombies to rape the land
Prime directive, exterminate
The whole human race
(In your face)
And your face just drops in a pile of flesh
And then your heart, heart pounds
Till it pumps in death
Prime directive, exterminate
Whatever stands left
All I wanna say
And all I gotta do
Who?d I do this for
Hey, me or you?
And all I wanna do
And all I gotta do
Who?d I do this for
Hey, me or you?
Oh, all I want to know
All I want

With just a touch of my burning hand
I?m gonna live my life to to destroy your world
Prime directive, exterminate
The whole fuckin? race
(In your face)
Then your face just drops in a pile of flesh
And then your heart, heart pounds
And it pumps in death
Prime directive, exterminate
The whole fuckin? place well
All I wanna say
And all I gotta do
Who?d I do this for
Hey, me or you?
And all I wanna say
And all I gotta do

Who?d I do this for
Hey, me or you?
Oh, all I want to know
All I want to know
All I want to know
All I want, oh
Go
