

# Underneath the Ice

## Simple Minds

Although every building's standing tall  
I look for you as something that much greater  
I searched thru my religion, in the hope that something could entice  
I dreamed of crossing bridges, mountain ridges, from the pole to the Equator  
But then I saw you skating by, I was underneath the ice Underneath the ice, Underneath the ice  
Was underneath the ice, Underneath the ice I woke up staring at the sun, I searched for you in every hidden angle  
In my imagination, every face and place, in memory inside  
High above the clouds they say there are galaxies and other destinations,  
But then I saw you skating by, but I was underneath the ice Underneath the ice, was Underneath the ice  
I was underneath the ice, Underneath the ice  
Was underneath the ice, Underneath the ice  
I was underneath the ice, Underneath the ice Today I dreamed another dream, predestined to come and save me  
later  
Today I dreamed another dream that you would come, to take me home Underneath the ice, was Underneath the  
ice  
I was underneath the ice, Underneath the ice I was underneath the ice, Underneath the ice
