

# Surface

## Denali

All through my mind all the time  
There's no right moment for signs  
Wish no one was lost or around  
I'll do it to you  
Back and forth is this worth all the going through  
Surfaced, I'll take it back  
So nervous, I said I'll take it back  
A secret so hard to hide it'll blow your mind  
Heads up, shred all the evidence for a downhill ride  
No one feels like I do  
Some say it's all over  
erase all the colors  
save the others  
walk into it and you will find  
If it's wrong or right show me now  
All through the night  
unless it's found  
A wicked effect inside  
It'll blow your mind  
No rest just test it out  
You can't afford this time  
No one feels like i do  
Some say it's all over  
Erase all the colors  
Save the others  
Some say it's all over  
Erase all the colors  
Save the others  
Walk into it and you will find
