

# I'm Breathing

## Curesick

Ridin' high on an angel's wings  
And the devil sings inside my head (ohh-oh ohh-oh)  
All alone on a Friday night  
With an empty bottle by my side (ohh-oh ohh-oh) And now I'm lookin' for the reasons why I'm alive  
And now I've finally come to realize I can't erase this feelin'  
I can't escape  
And now I'm lying on the floor  
And I really need to find the answers  
Lying on the floor  
'Cause I've given every piece of me  
And I'm breathing Now the lights are flashing  
And I'm crashing to the other side (ohh-oh ohh-oh)  
Need another time around  
Get me off the ground  
Give me one more try (ohh-oh ohh-oh) And now I'm lookin' for the reasons why I'm alive  
And now I've finally come to realize I can't erase this feelin'  
I can't escape  
And now I'm lying on the floor  
And I really need to find the answers  
Lying on the floor  
'Cause I've given every piece of me  
And I'm breathing And they prayed for  
Can he make it through?  
I'm not leaving...  
I'm not leaving you Ridin' high on an angel's wings  
And the devil sings inside my head (ohh-oh ohh-oh)  
Waking up from a dream I'm in  
And the nurse walks in  
She looks and says (ohh-oh ohh-oh) "Everything will work out right" I can't erase this feelin'  
I can't escape  
And now I'm lying on the floor  
And I really need to find the answers  
Lying on the floor  
'Cause I've given every piece of me  
And I'm breathing I can't erase this feelin'  
I can't escape  
And now I'm lying on the floor  
And I really need to find the answers  
Lying on the floor

'Cause I've given every piece of me  
And I'm breathing
