Let Me Stay

Prezioso

You won changes, I mean changes...Your job, don't speeling is deepin' inside
Rise on up
Then came alive
So baby please try to believe me
I feel your message in my heart.
Sometimes you want to call or need me
You will find
And open door
And want do any, can't you see me?
I think your message in my heart.
I wanna know it's came the feelin's you can share
You won changes, I mean changes...
Now I wanna let's you down...Let me stay
Let me stay
Let me stay
One more dayYou are the meanin' not my life
Wake me up
I see the light
To know the true I'm on my mind than
As you rippin' to my head.
Sometimes you just pretend to see me
Everytime
You hard me more
I want there if you really need me
As you rippin' to my head.
I wanna know it's came the feelin's you can share
You won changes, I mean changes...
Now I wanna let's you down...
