

Head Against The Sky

Eisley

Sleep with your head against the sky tonight.

I can't count how many times you have made me cry.

And I marveled at the way your hair glows in the light. There's one who cares for me today. (repeat) I've
watched you grow up child, you have made me proud.

And I love the way your hand fits so nicely in mine.

And I always screw up, I wonder how you sing to me. There's one who cares for me today.
