The Door

Silverchair

Could've been like before
Could've had to lock the doorMake your mind
Let the door, let the door swing
Only one, only one, to let the doorWanted to pretend he's dead
Didn't have to pretendMake your mind
Let the door, let the door swing
Only one, only one, let the doorAll this and more makes no sense to me
All this and more makes me drownLet me know he's alright
Let me know if you just mightMake your mind
Let the door, let the door swing
Only one, only one, let the doorAll this and more makes no sense to me
All this and more makes no sense to me
All this and more makes no sense to me
All this and more makes me drown
