Neighbor, Neighbor

Julia Holter

Neighbor, neighbor
Why you messin' in my life?
Neighbor, neighbor
You've been talkin' to my wifeTellin' her you seen me
Runnin' wild the other night
Runnin' wild the other nightA neighbor, neighbor
There's always one in every crowd
A neighbor, neighbor
Tellin' lies and talkin' loudYou better watch your step now
You might fall off your cloud
You might fall off your cloudNow I was walking down a dusty road
When along came a neighbor of mine
He saw me walkin' with my head hung down
He just had to stop and pass the timeA neighbor, neighbor, neighbor
Floatin' in the salty brine
Floatin' in the salty brine
