

# Oh By the Way

## PT Walkley

oh by the way  
there's still plenty of time to waste in the day  
doesn't matter what your friends don't say  
i'll stay strange as i wanna be

down by the bay  
wandering aimlessly today  
so you say that it's typical to act this way  
i say you're not the same as me

staring at the people in the street  
shameless imitations of the ones that used to be  
trying to set us free

you think you're dangerous  
you step to us without a cause  
we'll make you wish you never left your bed at all

laughing in your face until you cry  
look around you all your friends have left without goodbyes  
watch them run and hide

let's make believe you never left your bed at all

oh by the way  
wasted all that time away  
now we're great  
never thought that it would end this way  
i pray you're not ashamed of me

---
