

Last Train to Heaven

Boxcar Willie

Last train to Heaven, well, I caught it just in time
Pullin' out of New Mexico, that's where I did my crime
I made a man swing from a necktie made of twine
But they'll never catch me 'cause I jumped this number nine
It'll all be fine, wait a minute
Stop this thing
Some Cajun hoodoo fate
This train is loaded down

Gotta cargo full o hate, I axed them where it was
This speed ball liner's bound and they were laughing hyenas
As they pointed to the ground, we're going down
Last train to heaven, what a goddamn fool I been
Open up that burnin' stove for a shovel full o sin
Fear is the conductor all aboard
The Black Diamond Express train straight to Hell
