

# Worlds Away

Nadine Renee

I'm walking down a lonely road  
One that I've never known  
I hope it leads me home  
Sometimes I feel so far away  
Can't find the words to say  
I'm exiled on my own  
Give me something to believe  
I'm worlds away  
I'm worlds away  
I'm worlds away  
Tryin' to find my way home  
I look to the sky right over me  
Hoping you see the stars I see  
It makes me feel less alone  
There's never one place that I can stay  
Sorry my world's so far away

One day I promise I'll be home  
Give me something to believe  
I'm worlds away  
I'm worlds away  
I'm worlds away  
Tryin' to find my way home  
I need someone to take my hand  
I need someone to understand  
I'm standing on the edge  
And I'm looking down  
I'm worlds away  
I'm worlds away  
I'm worlds away  
Tryin' to find my way home  
Tryin' to find my way home  
Tryin' to find my way home  
Tryin' to find my way back home
