

# Little Boy Love

[Loretta Lynn](#)

Oh a little boy love is a love that's true the kind of lovin' that I have for you  
I don't want the moon and the stars above just gimme your little boy love What kind of lovin' you give to me my  
little boy love I give to you  
It's the kind of lovin' that I'll always be  
Yeah the little boy love is the love that's true  
Hey there honey I'm in love with you I sure do loove your little boy love  
Hey there sugar do you love me now yes I love your little boy love  
Oh my kind of love...  
[ guitar ]  
Think I'll try your love and see I think you like my little boy love  
It's the kinda lovin' that was meant for me yeah you like my little boy love  
Baby I think you know the score I sure do love your little boy love  
Please please honey won't you give me more yes I love your little boy love  
Yeah my kind of love...
