

# I Walk Alone (artist version, bonus)

## Tarja

Put all your angels on the edge  
Keep all the roses, I'm not dead  
I left a thorn under your bed  
I'm never gone  
Go tell the world I'm still around  
I didn't fly, I'm coming down  
you are the wind, the only sound  
Whisper to my heart  
when hope is torn apart  
and no one can save you  
I walk alone  
Every step I take  
I walk alone  
My winter storm  
Holding me awake  
It's never gone  
When I walk alone  
Go back to sleep forever more  
Far from your fools and lock the door  
They're all around and they'll make sure  
You don't have to see  
What I turned out to be  
no one can help you  
I walk alone  
Every step I take  
I walk alone  
My winter storm  
Holding me awake  
It's never gone  
When I walk alone  
Waiting up in heaven  
I was never far from you  
Spinning down I felt your every move  
I walk alone  
I walk alone  
Every step I take  
I walk alone  
My winter storm  
Holding me awake

It's never gone  
When I walk alone
