

Cavanaugh Park (Acoustic Napster Sessions)

Something Corporate

At Cavanaugh Park
Where I used to sit all alone in the dark
And dream about things that I cannot say
You always said destiny would blow me away
And nothing's gonna blow me away At Cavanaugh Park
Where you used to take me to play in the sand
And said to me, "Son, one day you'll be a man,
And men can do terrible things."
Yes, they can But there was never any place
For someone like me to be totally happy
I'm running out of clock and that ain't a shock
Some things never do change
Never do change At Cavanaugh Park
We used to get high
Watching teams as they fought
They loved my friend Adam but he always got caught
Man, that kid made fucking up look cool
Aren't we all so cool? But there was never any place
For someone like me to be totally happy
I'm running out of clock and that ain't a shock
Some things never do change
Never do change At Cavanaugh Park
Where I used to think that this life would be good
And I would do things that I thought that I should
And no one's gonna tear me down But there was never any place
For someone like me to be totally happy
I'm running out of clock and that ain't a shock
Some things never do change
Never do change
