

# Coat Check Dream Song (Live Version)

## Bright Eyes

Shrill as a choir of children  
Urgent like the first day of May  
False and inflatable feeling  
Tugs at my senses  
Big as the Macy's Parade One brick on top of another  
Such is the measure of man  
Planets are inset like diamonds  
On a gravity halo  
Eternity's wedding band I slept with that dealer all summer  
The ecstasy's still in my spine  
Coat check, I couldn't remember  
Walked into the winter  
Came out on the other side And in the south, the sun is shining  
Back in the east, the lights went out Stuck on a ladder to heaven  
On trial way back in The Hague  
Lullaby sounds from the engine  
In my Styrofoam coffin  
Asleep on the interstate Black globes, old symbols of freedom  
A murderer still on the lam  
Cities encircled in iron  
On a great silver beltway  
Democracy's shackled hands Seance that brought us together  
Objects we move with our minds  
Coat check and I lost the number  
Short sleeves in the winter  
Fell back through the other side Out in the west, the cars are crashing  
Up in the north, the ice gave out Saada Tekmel B'Lhouria  
Saada Tekmel  
Saada Tekmel B'Lhouria  
Tekmel B'Lhouria  
Houria
