

No One Does It Like You

Department of Eagles

Out in the morning calm
You don't need to ask an alibi
And in the morning calm
You don't need to be so honest
And in the morning calm
You don't need to ask an alibi
And in the morning calm
You don't need to breathe so easy
I laughed so hard I fell down
I cursed these lanes I walked on
No one does it like you
No one does it like you
I tried so hard
But no one does it like you
No one does it like you
But I tried so hard
