

# Need a Little Sunshine

[Augustana](#)

Hold on, watch your step  
You gotta take a breath  
No it ain't easy to fly Get back, lose yourself  
Got you and no one else  
There ain't no reason to cry 'Cause in my life and times  
She is paradise, I know you and I Gotta little bit of faith in the hard times, oh oh oh  
Gotta little bit of shade in the moonlight, oh oh oh  
Gotta little bit of right at the wrong time, oh oh oh  
Got you and I'm feeling alright  
Babe I just need a little sunshine Lay back, feel the beat  
You got a hold on me  
It's never easy to change Try hard not to move  
Let me get my hands on you  
Don't want you feeling this way No one's gonna break us  
No one's gonna bring us down
