Now I'm Dancing

Callalily

Heads up, arms high, feet on the ground
been living twenty-eight years now
but i'm still that kid who plays around
i'm still that kid who talks out loud
And now i'm dancing
we'll keep on dancing
i'l dance until the night is out
oh, i' just dancing
come on, keep dancing
let's dance ang let ourselves out (yeah)
Don't ever think your life's a mess
my friend ,that's normal, leave your stress
and when you think your're all alone
look at the stars until they fall
And now i'm dancing
we'll keep on dancing
i'l dance until the night is out
oh, i' just dancing
come on, keep dancing
let's dance ang let ourselves out (dancing)
Now put your hands up in the sky
let's celebrate, the night is young
now put your hands up in the sky
let's celebrate
And now i'm dancing
we'll keep on dancing
i'l dance until the night is out
oh, i' just dancing
come on, keep dancing
let's dance ang let ourselves out
Oh, i'm just dancing
we'll keep on dancing
i'l dance until the night is out
oh, i' just dancing
come on, keep dancing
let's dance ang let ourselves out
Heads up, arms high, feet on the ground
been living twenty-eight year now
