

# Got What You Need

## Whitesnake

Ay-up!Here I am baby, I'm standing outside your door  
You're just what the doctor ordered and I want moreI'll give you what you want  
    Give you what you need  
    Give you what you want  
    Make it hard to breathe

I got what you needWhen the sun goes down I feel my temperature rise  
I'm a back door man and baby I'm specializedI'll give you what you want  
    Give you what you need  
    Give you what you want

Come on, make me bleedI wanna be your midnight lover  
    Spend the night underneath the covers with you  
I got what you needI wanna be your fancy man  
    Give you all the good, good lovin' I can

I got what you needMy backstreet kinda love's guaranteed to please  
Gonna work you overtime, bring you to your kneesI'll give you what you want  
    Give you what you need  
    Give you what you want

I can guaranteeI wanna be your midnight lover  
    Spend the night underneath the covers with you  
I got what you needI wanna be your fancy man  
    Give you all the good, good lovin' I can

I got what you needI got what you need[Solo]Baby that sweet sweet love just ain't enough  
I'm gonna kick down your door and I'll take you homeI'll give you what you want  
    Give you what you need  
    Give you what you want

Make it hard to breatheI wanna be your midnight lover  
    Spend the night underneath the covers with you  
I got what you needI wanna be your fancy man  
    Give you all the good, good lovin' I can  
I got what you needI got what you need!  
    I got what you need!
