

Little Bear

[Michael Johns](#)

Little bear, little bear tell me what you got done wrong?
Little bear, little bear tell me what have you done wrong?
You got money in your pockets, food to keep you fed
I'm hearing about another man laying in my bed Tell me what you sing when you're all alone?
No matter what you sing it's just the same, same songs
Tell me what you sing when you're all alone?
No matter what you sing it's just the same, same songs Little bear, little bear tell me what you got done wrong?
My little bear, little bear tell me what have you done wrong?
Well, I hear a little talking, I see trouble in your stare
People keep on warning me but baby I ain't scared Tell me what you sing when you're all alone?
No matter what you sing it's just the same, same songs
Tell me what you sing when you're all alone?
No matter what you sing it's just the same, same songs Tell me what you sing when you're all alone?
No matter what you sing it's just the same, same songs
Tell me what you sing, are you all alone?
No matter what you sing it's just the same, same songs It's just the same, same songs
Oh, little bear, my little bear
It's just the same, same songs
