

Little Bear

Michael Johns

Little bear, little bear tell me what you got done wrong?

Little bear, little bear tell me what have you done wrong?

You got money in your pockets, food to keep you fed

I'm hearing about another man laying in my bedTell me what you sing when you're all alone?

No matter what you sing it's just the same, same songs

Tell me what you sing when you're all alone?

No matter what you sing it's just the same, same songsLittle bear, little bear tell me what you got done wrong?

My little bear, little bear tell me what have you done wrong?

Well, I hear a little talking, I see trouble in your stare

People keep on warning me but baby I ain't scaredTell me what you sing when you're all alone?

No matter what you sing it's just the same, same songs

Tell me what you sing when you're all alone?

No matter what you sing it's just the same, same songsTell me what you sing when you're all alone?

No matter what you sing it's just the same, same songs

Tell me what you sing, are you all alone?

No matter what you sing it's just the same, same songsIt's just the same, same songs

Oh, little bear, my little bear
It's just the same, same songs
