Sinner

Throwdown

Advisory - the following lyrics contain explicit language:

Answer me this, is God a fascist? If you can't see him, then you will burn in hell. Help me. Save me. Show your fucking face. In the name of love you let me fall from your grace. Show your face and save, or let me hate you. Down on those knees never did a fucking thing. Rot and sin, cause you can't see him. Cause you can't see what he never showed, then you will burn in hell. Rot and sin, cause you can't see him
