Peeling Off the Layers

Wildbirds & Peacedrums

There in the day come to me
Straight into my arms
I try to hold it
But it just ran through my fingers
The ocean
They come to me
Straight into my arms
I tried to caress it
But it ran through my fingersWater will keep running
Rivers will turn
Water will keep running
Rivers will turn
Water will keep running
Rivers will turn
Water will keep running
Rivers will turnSo how can I ever find
What I'm looking for?
When it's been frozen
Stuck at the horizon
The wind blows from north to south
But I'm still where I was
Keep taking some shirts off
And taking them offPeel off the layers
Peeling it off
Peel off the layers
Peeling it off
Peel off the layers
Peeling it off
Peel off the layers
Peeling it offI wish I could find a cure
And to know my disease
But like nothing is heard of
The circle of all of life
And let life will carry me to the other side
There is looking just like this
With the sink on the openEverything is so far
Leaking about
Everything is so far
Leaking about

Everything is so far
Leaking about
Everything is so far
Leaking about
