I met a fox the other day
When I asked how much she cost, I had to pay
 All of a sudden I'd brought her home
She's one hundred kilos dressed in silver chrome
 She's my world, she's so rad
 And she's the best ride I ever had
 She's my life, she's so bad
 And she's the best ride I ever had
 When I imagine me and her
 You know that I get a stand-up fur
 I give her oil, I give her gas
 And get her seat beneath my ass
And then the turtledoves drive away
 She's my world, she's so rad
 And she's the best ride I ever had
 She's my life, she's so bad
 And she's the best ride I ever had

She's secondhand, so what?
She's true, she's by my side
 For all I care, she's hot
 She's a real good ride
 When we go out people stop
 And stare with jealous minds
It's okay for me, as long as they let her be
 To prevent something like a theft
 I got her locked around a tree
 She's my world, she's so rad
 And she's the best ride I ever had
 She's my life, she's so bad
 And she's the best ride I ever had
 And she's the best ride I ever had
 And she's the best ride I ever had
